Valve Positioners Valve Position Monitors & Limit Switches Air Filter Regulators Air Volume Boosters

LSB-1000 Weatherproof Valve Monitors **LSB-3000 and LSB-7000 Flameproof Valve Monitors with Integrated Solenoid Valves**

Archer's line of Valve Position Monitors and Limit Switches offer the industry's best switch and sensor options, from SPDT and DPDT Mechanical Switches, Tungsten and Rhodium Non-Contact Switches to P&F IS Sensors. A wide range of visual indicators and options are available including stainless steel housings. IECEx, Atex and FM Global approvals for Hazardous Areas.

ASD-5000 4-20mA Smart Positioners **ASD-7000 4-20mA Flameproof Smart Positioners**

Archer's ASD Smart Positioners excel in the harsh working conditions found in the toughest environments. The ASD is easier to calibrate and program, and is more resistant to dirty air and vibration due to its non contact feedback sensor. HART, Profibus and Foundation Fieldbus communication and ATEX and IECEx certification for Intrinsically Safe and Flameproof options readily available along with stainless steel enclosures for corrosion resistance.

EPR 4-20mA Electro-pneumatic Positioners **PPR 3-50psi Pneumatic Positioners**

High quality control devices designed to provide unparalleled stability in areas of high vibration, with a high tolerance for less than perfect air. A classic, high quality design with a proven life span over 20 years.

EPR Positioner are available with UL Explosion-Proof ratings for the US and Canada, or Flameproof and IS ratings for Atex and IECEx

AFR Premium Air Filter Regulators

Archer's air filter regulators provide reliable filtration and precise pressure control to protect your instrumentation equipment. SIL3 Rated.

- Available in 1/4", 1/2", and 3/4" NPT,
- Aluminum or 316 Stainless Steel housings
- Manual or Automatic drain options
- Replaceable 5-micron filter elements
- Includes stainless steel pressure gauge
- Engineered for durability and dependable performance

AVB Premium Air Volume Boosters

Archer's air volume boosters are designed to boost the performance of positioners mounted on larger actuators. SIL3 Rated.

- Available in high flow 1/4", 3/8", 1/2", and 3/4" NPT sizes
- Aluminum or 316 Stainless Steel housings
